

Infor Implementation Accelerator for Supply Chain Execution—3PL

Accelerate the flow of business information

As a third-party logistics (3PL) service provider, you encounter many challenges that can keep you from delivering customer value faster. Infor® Supply Chain Execution (SCE) can help you quickly move the right information to the right people so that you can do more for your customers and increase revenue. To speed adoption of this powerful warehouse management and 3PL billing solution, turn to Infor Implementation Accelerator for Infor Supply Chain Execution—3PL.

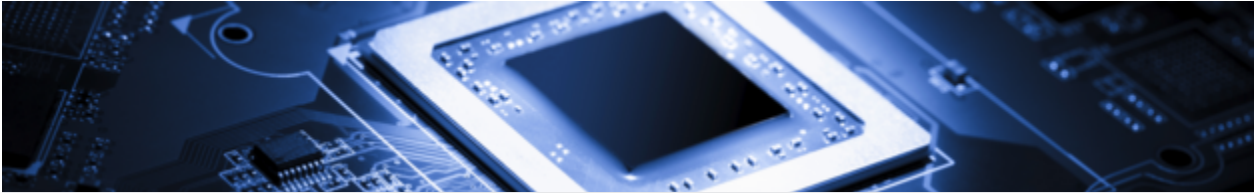

Implement faster, benefit sooner

With Infor Implementation Accelerator for Infor Supply Chain Execution—3PL, you can put comprehensive core functions of SCE to use right away with minimal reconfiguration. Infor Implementation Accelerator delivers predefined but flexible enterprise and warehouse level data values, business processes, templates, and much more—using examples specific to the needs of logistics service providers. All are based on industry best practices and extensive industry expertise.

- Help your users become proficient quickly, efficiently, and economically.

Find specific solutions to immediate needs

Infor Implementation Accelerator for Infor Supply Chain Execution—3PL embodies decades of industry experience by providing highly focused, pre-built content you can use to rapidly create a solid business solution, while delivering a variety of outputs, including a business process portal with pre-defined users, and test scripts. By reducing the internal effort and complexity of deploying Infor Supply Chain Execution, Infor Implementation Accelerator helps reduce implementation time and accelerates your time to value.

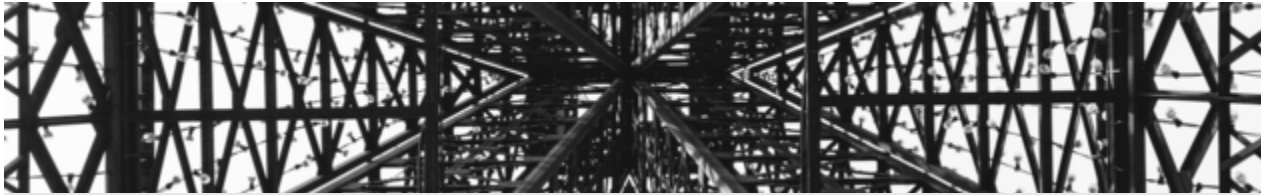

Get up to speed quickly

The Infor Implementation Accelerator for Supply Chain Execution—3PL is a focused, flexible solution tailored for third-party logistics service providers that gets you and your organization up and running quickly, delivering:

- **Accelerated implementation**—By populating the solution to support a significant number of core configurations and processes, Infor Implementation Accelerator—3PL is robust, yet flexible enough to adapt to your unique
- **Industry best practice processes**—Infor Implementation Accelerator is based on the experience Infor has gained from dozens of industry projects. The product covers a wide range of warehouse management functions, including inbound and outbound material processing, 3PL billing, replenishment, and inventory control.
- **Reduced implementation risk and stress for employees**—Infor Deployment Methodology refines your preconfigured solution proposal step by step, so that fewer personnel need to be involved in developing the project scope and implementing the solution. Instead, you can focus on helping your users become proficient in the Infor Supply Chain Execution applications.
- **A foundation for future success**—Infor Implementation Accelerator is ideal for companies that want to implement Infor Supply Chain Execution rapidly and easily, but envision growth ahead and need long-term scalability and continuous improvement.
- **Lower overall total cost of ownership**—With Infor Implementation Accelerator, your Infor Supply Chain Execution software can be less costly, less risky, and deliver faster time to benefit.

Do business better

When you have to compete with the biggest companies in the industry and make your mark quickly, Infor Implementation Accelerator for Supply Chain Execution is simply the best choice.

Gain lasting results

Infor Implementation Accelerator for Supply Chain Execution—3PL can be your final step—or your first step—in an on-going process of continuous improvement. As your business changes and grows, it's easy to expand the scale and scope of your Infor Supply Chain Execution solution and integrate it more fully with other applications by:

- Growing from one or a handful of sites to a global company with multi-division, multi-site capabilities
- Increasing the complexity and scope of your network
